Subject: Panaca Farmstead Association – Waster Water Improvements

Dear Coordinator:

Pursuant to the Memorandum of Understanding (MOU) between our agencies, this is to notify you that the USDA - Rural Development has received an application for a loan/grant for wastewater improvements from the Panaca Farmstead Association. The project will be located in the town of Panaca, Nevada, in Sections 4, 5, 7, 8 and 9, in Township 2 South, Range 68 East of the Mount Diablo Meridian.

The project will be for improvements to the existing wastewater system which are re-lining of the wastewater treatment ponds #1-3 and general pond improvements including, inlets and outlets improvements, removal and disposal of sludge, removal and disposal of existing aerator platforms, pond embankment improvements, miscellaneous pond earthwork, relocate existing fences and install new fences as required. There will also be reconstruction of the wet well and lift station located at the corner of Hansen and 2nd, and the replacement of the force main that runs along the north side of Hansen Street to the lagoons. The force main replacement will consist of 4300 linear feet with 6 inch C900 PVC pipe. We have completed an inspection of the project site and considers all ground previously disturbed.

Attached is a map and photos showing the location of the proposed project.

Unless the Clearinghouse Coordinator advises us otherwise, within 30 days of this notice, we will assume that the final Clearinghouse comments will not be forthcoming and, therefore, the State Clearinghouse responsibilities of USDA - Rural Development will have been satisfied.

If you have questions or need additional information, please contact me at 775-887-1222, ext. 114.

Sincerely,

A handwritten signature in blue ink that reads "Lisa Garland". The signature is fluid and cursive.
