Mesdames, Gentlemen,

The United States Air Force is in the process of preparing an Environmental Assessment (EA) examining potential environmental impact that could result in the acquisition of private property in Indian Springs, NV. The property is located on the north side of US 95, adjacent to Creech AFB, in Clark County, NV. The purpose of the proposed acquisition is to increase the security buffer along the boundary of the installation as the Creech AFB mission has become critical to National Security and Overseas Contingency Operations.

Alternative forms of acquisition include easement, lease, and fee acquisition of land. All of these alternatives, as well as the No Action Alternative, will be examined in the EA.

Nellis AFB requests the assistance of the Clearinghouse in identifying potential areas of environmental impact that should be addressed in the EA. Please forward any identified issues or concerns to Mr. Tod Oppenborn at the above address by March 22, 2011, or e-mail him at tod.oppenborn@nellis.af.mil. Thank you for your assistance.

Sincerely,

Deborah Stockdale
