Carson City, NV 89701

Subject: Arsenic-Manganese Removal Water Treatment Project

Dear Coordinator:

Pursuant to the Memorandum of Understanding (MOU) between our agencies, this is to notify you that the USDA - Rural Development has received a request for financial assistance from the Pyramid Lake Paiute Tribe. SCOPE OF PROJECT – to construction of an Arsenic and Manganese removal water treatment plant (WTP) at the Mullen's Canyon well site, which serves as the drinking water source for the community of Sutcliffe, Washoe County, Nevada. The project will consist of construction adjacent to the existing pump house/well site in Mullen's Canyon, a WTP, a backwash tank and an evaporation infiltration pond. The proposed Water Treatment Plant will connect into the existing water distribution system.

Attached is a map and photos showing the location of the proposed project.

Unless the Clearinghouse Coordinator advises us otherwise, within 30 days of this notice, we will assume that the final Clearinghouse comments will not be forthcoming and, therefore, the State Clearinghouse responsibilities of USDA - Rural Development will have been satisfied.

If you have questions or need additional information, please contact me at 775-887-1222, ext. 111.

Sincerely,

Barbara Allen
Community Programs Specialist
