Notice of Realty Action: Direct Sale of Public Lands in Pima County, AZ

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of Realty Action.

SUMMARY: The Bureau of Land
Management (BLM), Tucson Field

Office (TFO), proposes to sell a parcel
of public land consisting of
approximately 5.96 acres in Pima
County, Arizona. The parcel is being
proposed for noncompetitive direct sale
to the Three Points Fire District under
the provisions of the Federal Land
Policy and Management Act of 1976, as
amended (FLPMA), and the BLM sales
and mineral conveyance regulations for
the appraised fair market value (FMV) of
\$83,440.

DATES: Comments regarding the
proposed direct sale must be received
by the BLM within 45 days of the date
this notice is published in the **Federal
Register**.

ADDRESSES: Written comments
concerning the proposed sale should be
sent to Brian B. Bellew, Field Manager,
BLM Tucson Field Office, 3201 East
Universal Way, Tucson, AZ 85756.

SUPPLEMENTARY INFORMATION: The
following described public land is being
proposed for direct sale to the Three
Points Fire District in accordance with
Sections 203(a)(1) and 209(b)(1)(1) of
FLPMA, at not less than the appraised
FMV.

Gila & Salt River Meridian

Township 16 South, Range 10 East,
Sec. 4, Lot 17.

The area described contains
approximately 5.96 acres in Pima
County, Arizona. Regulations contained
in 43 CFR 2710.0–3(a) and 43 CFR
2711.3–3(a)(2) make allowances for land
sales, and also for sales whereby a
competitive sale is not appropriate and
the public interest would be best served
by a direct sale. The public land was
identified as suitable for disposal in the
BLM Phoenix Resource Management
Plan and Record of Decision approved
September 29, 1989. It is not needed for
any other Federal purpose, and is
difficult and uneconomic to manage.
Disposal would alleviate the continued
administration of existing land use
authorizations. This is an important
public project for the community of
Three Points as it will provide a
permanent solution for fire protection
services. Speculative bidding would

jeopardize the timely completion and
economic viability of the project. A
competitive sale is therefore not
appropriate and the public interest
would best be served by a direct sale.
No significant biological and cultural
resource values have been identified.
There are no impacts to resource values
that are expected from this action. The
BLM prepared a mineral potential report
dated February 23, 2012, and concluded
that the lands identified for sale have no
known mineral value. The BLM
proposes that conveyance of the Federal
mineral interests would occur
simultaneously with the sale of the
land. The project is not expected to
affect the Tohono O’odham Indian
Reservation and the San Xavier Indian
Reservation, which are located within
10 miles of the sale property.
Conveyance of the identified public
land will be subject to valid existing
rights and encumbrances of record,
including, but not limited to, rights-of-
ways for roads and public utilities. On
July 5, 2013 the above-described land
will be segregated from all forms of
appropriation under the public land
laws, including the mining laws, except
for the sale and mineral disposal
provisions of FLPMA. Upon publication
of this Notice of Realty Action and until
completion of the sale, the BLM will no
longer accept land use applications
affecting the identified public land,
except applications for the amendment
of previously filed right-of-way
applications or existing authorizations
to increase the term of the grants in
accordance with 43 CFR 2807.15 and
2886.15. The segregation will terminate
upon issuance of a patent, publication
in the **Federal Register** of a termination
of the segregation, or on July 6, 2015,
unless extended by the BLM Arizona
State Director in accordance with 43
CFR 2711.1–2(d) prior to the
termination date. The land will not be
sold until at least 60 days after the date
of publication of this notice in the
Federal Register at the appraised FMV
of \$83,400. The patent, if issued, will be
subject to the following terms,
conditions, and reservations:

1. A reservation of a right-of-way to
the United States for ditches and canals
constructed by authority of the United
States under the Act of August 30, 1890
(43 U.S.C. 945);

2. A condition that the conveyance be
subject to all valid existing rights
documented on the official public land
records at the time of patent issuance,
including:

a. Right-of-way AZA–33726 to Trico
Electric for a 15-foot-wide buried power
line;
