RE: Storey County 5 Mile Tank Water Line Project

Dear Mr. Canfield:

Storey County is in the process of performing an environmental review pursuant to the National Environmental Policy Act for the USDA, Rural Utilities Service in order that it may assess the environmental impacts of a water line replacement in Storey County, Nevada. The project is being proposed to replace 14,374 feet of an existing water line that supplies Virginia City. The attached map shows the existing water line and the proposed alignment. All of the work will be performed within the Proposed alignment shown on the map.

Please distribute this information to any entity that might have an interest in the project. All responses and/or recommendations will be used to complete the USDA environmental assessment. We would appreciate a response within 30 days. If you need further information or wish to discuss the project, please contact Dan Sommers of Farr West Engineering at 775-851-4788.

Sincerely,

Dan Sommers
