

Nevada Department of Transportation Public Information Meeting for USA Parkway (SR 439)

Connecting the Region. Connecting Nevada!

Purpose of Meeting: The Nevada Department of Transportation (NDOT), in coordination with the Federal Highway Administration and the Bureau of Land Management, invites you to attend a public information meeting for the USA Parkway Project. Please attend at your convenience between the hours of 4 – 7 p.m. Project representatives will give a brief project update at 5:30 p.m. Project representatives will be available throughout the meeting to discuss the project and answer questions.

Project Benefits: The USA Parkway Project is a transportation link between Interstate 80 (I-80) in Storey County and U.S. Highway 50 (U.S. 50) in Lyon County, approximately 18 miles total. A six mile portion of the roadway already exists in Storey County servicing the Tahoe-Reno Industrial Center. The approximately \$76 million project linking I-80 and U.S. 50 will enhance local and regional access and mobility. It will provide an alternative route for traffic in case of an emergency or closure on I-80, U.S. 50, or U.S. 95A. USA Parkway will support planned land uses and economic development and will improve efficiency of freight movement from areas east of Reno to points south.
